

# SALZBURG MATHEMATICS COLLOQUIUM

Summer 2017

March 16, 2017

**Vitaly Bergelson** (Ohio)

„Ergodic Ramsey theory: a meeting point of dynamics, combinatorics, and number theory“

March 30, 2017

**Ulrich Langer** (Linz)

„Multi-patch discontinuous Galerkin space and space-time isogeometric analysis“

April 27, 2017

**Rolf Schneider** (Freiburg im Breisgau)

„Differences of convex bodies and Baire category“

May 4, 2017

**Christoph Scheven** (Duisburg-Essen)

„The (thin) obstacle problem for the total variation functional“

June 8, 2017

**Ruodu Wang** (Waterloo)

„Compatibility of scenarios and scenario-based risk evaluation“

Thursday, **15:00-15:45**

Hörsaal 414, 1. Stock
