

SALZBURG MATHEMATICS COLLOQUIUM

Winter 2019/2020

December 5, 2019

Roland Donninger (Vienna)

„Singularity formation in dispersive wave equations“

December 12, 2019

Stephan Wagner (Stellenbosch)

„Loop models on a fractal“

January 9, 2020

Dorothee Knees (Kassel)

„Rate-independent systems in the context of damage and fracture“

January 16, 2020

Ferenc Fodor (Szeged)

„Stability of some geometric inequalities via measure transportation“

January 30, 2020

Antoine Chambaz (Paris)

„Targeted Machine Learning: How we can use machine learning for causal inference“

Thursday, **15:00-15:45**

Hörsaal 414, 1. Stock
